Corry Hide & Fur Company

MANUFACTURERS OF

Sole, Harness and Upper Leather

GENERAL OFFICES, BERLINER BUILDING

CORRY, PA., U. S. A.,

Aug. 1, 1908.

Dear Sir:

It is our policy to take an interest in our shippers. The success of our shippers means our own success at all times. We aim to please shippers and to get their shipments regularly.

We find, on examination of our records, that you made us a shipment of hides and skins sometime ago, but that we have not lately had the pleasure of a shipment from you. Quite naturally, we write to find out why this is so.

Haven't you been getting our pricelists regularly? We have been sending them to you every month and yet we have failed to get a shipment of you in a long time. We write at this time to find out why this is so and would appreciate a reply from you by return of mail.

Sending out pricelists to those who are not interested and who do not expect to ship is expensive, and also needless labor. If you are not buying hides now, but expect to be later, let us know when to commence to send you our pricelist. We would prefer that you used the back of this letter for your reply, so that we may have this letter and your reply together in our files.

Won't you please write at once and let us know just why you are not shipping?

Yours truly,

CORRY HIDE & FUR COMPANY.
