

Sharon Pa. May 25, 1977

TO OUR THREE DAUGHTERS :

We, your mother and I after visiting ISRAEL, face to face want you to share with us the feeling of usefulness to our continuity as a people.

We in the diaspora, love our home and existence here in the U.S.A. Not all our people are as fortunate, our ancestors caught an earlier boat to America - we seek contact with our ROOTS. We want Israel, s open door to stay open for those unfortunates forced to flee their homes.

We want Israel to continue providing means to newcomers for fulfillment of their ambitions for serenity. We saw their children laugh and dance and breath and expect opportunities for their future.

Each of us would feed a person who was hungry or was ill and needed relief from pain, upon seeing them in that state. How much more worthy we feel when without seeing the suffering we can assuage the hurt.

We have bought Israel Bonds (in small denominations) many reaching their maturity, since they were available. This year we bought \$1500 worth - one \$500 Bond for each of our beloved daughters. OUR HEARTFUL OF LOVE TO EACH OF YOU.

Mama & Dad.

P.S. Excuse this Xerox, too lazy to type three letters with one finger.
P.S.S. Do not forget to clip the coupons when due, your bank will redeem them. If you fail to redeem them Chase National Bank is the richer.
