

# "We Can't All Go --- But We Can All Help!"

This is an American soldier.

He goes to war not with any fanatical theories of race superiority, of any special "place in the sun," nor any desire to rule the world by fire and by sword. He fights for something greater. For decency—for his loved ones—for his Country, not as some warlike symbol, but as the one great refuge in this world where the humble, the meek, and the righteous may live and work in peace.

This is why he must win. For these are lasting, truthful things. They are not temporary drugs for the mind, but steadfast things of the heart and the soul. And when the flame of fanaticism finally flickers and goes out, the fires of American decency and honor will still burn.

It is this same sense of decency and honor that has bound us all together. We know we cannot all fight. But there is something we can do—and are doing—to help. We can help provide the guns, the planes, the tanks, and the ships to put **might behind the right.**

By the tens of millions, Americans are saving for Victory in the War Bond Payroll Savings Plan. Every payday we employees, workers and bosses are putting aside 10% of our pay—a dime from every dollar—and every time these savings amount to \$18.75, we get a War Bond. And—because this is the free American way—our money is working double. First it goes in a mighty flow for the instruments of Victory, then—ten years later—it comes back to us, **four dollars for every three** we've put into War Bonds—\$25 for every \$18.75.

Now look at the picture again. Then imagine that this soldier were **your** brother, **your** son, or **your** sweetheart.

Would ten percent of your pay, in War Bond savings, be too much to help him win—and live?

5 Reasons Why

1. By investing in War Bonds you help provide the planes, the tanks, the guns and the ships we must have to survive and conquer.
2. You prove that you are a patriotic American.
3. You aid the morale of our fighting men, by showing them that the entire Nation is behind them.
4. You prove to our enemies that we are a United People.
5. You protect your own financial future, as every \$18.75 you invest in a War Bond brings you back \$25 in 10 years. You make the world's **safest** investment, by buying a share in the world's most powerful country.
