

Dear Jofers—

I received the following grades to-day:

Medicine B

Comprehensive B

Pathology C+

Laryngology B

Laboratory Diagnosis A+

Physiotherapy A

Toxicology A

Therapeutics B

Gynecology C

Pediatrics A

Obstetrics C+ (Mannikin A)

I was never so surprised in my life. When Dr. Butler got down to Laboratory Diagnosis & said "A+", I expressed my amazement, and she took it that I meant the Lab Diagnosis, and agreed with me that that course was a bit difficult in some particulars.

Well, I certainly do have you to thank for ~~of~~ keeping up my moral and courage, and now with this expression of confidence in me by the WMC, I am going to study my head off in appreciation.

I know I certainly don't deserve it.

Praised be the Lord!

And praised be Jack, and Mother, and
Dad, and everybody else for such faith as you put
in me. O, that I could only be worthy of this con-
fidence!

Telda Kiskind

I go now to see the movies on Anesthesia.

Paid Winnie the money. Take your time about
sending me the rest. It's OK.
