Dallas, Texas

September 21, 1949

Dear Selma, Allen, Barbara, Susan & Richard:

Your Mother and Grandmother joins me in wishing for all of you a very fine, happy and healthy new year and our hopes that during the new year we may be together a great part of the time. May your own best wishes for yourselves come true.

I am glad to say that Mother seems to be improving right along. As you know she has had no fever for two or three weeks and while she still complains of some aches and pains and has to have constant attention from the nurses, still she looks and acts as though she were gradually getting well.

Monday I had her out riding in the car a couple of times and she comes down stairs in the elevator for her noon and evening meal and also sits up in the chair a good part of the time up stairs. Also, she plays gin rummy with me every day and seems to be very much like her old self.

Yesterday Samson and I drove down to Keltys to attend directors meeting of Angelina County Lumber Company and got back home about 7:30 yesterday evening.

With more good wishes for the new year and for all the years to come and with much love and kisses, I am

Affectionately yours,

Daddy
& Grandma
