Our accomplishments throughout the years:

A handful of people with a profound belief in their religion, themselves, and in their fellowmen, built a place of worship and have kept it up throughout the years. The congregation have served themselves and the community, and their country, individually and as a group, always willing to offer their services whenever the need arose.

Our predictions, our aims, and our wish: we hope to achieve by 1981:

To preserve for our children, the place of worship our fathers built; to instill the same high ideals in the future leaders of our congregation and community as in the past; and to keep alive, always, a way of life as was first given us five thousand seven hundred and seventeen (5717) years ago.
