There is no movement in the United States that has done as much for the juvenile delinquent as this Republic. Its record is marvelous and it is impossible to calculate the great good it has accomplished.

**A. Leo Weil, Esq., Active.**

We are gratified to note the active part that our co-religionist, A. Leo Weil, Esq., is taking in the civic affairs of this community. As the author of a civil service bill he has done much toward improving the efficiency and the character of the public employes. His bill met with determined opposition in certain quarters in the legislature, but from all indications Mr. Weil has finally scored a complete victory.

**Congregational Responsibility.**

Rabbi Michael Fried is at present in sole charge of Temple Israel, San Francisco, as his associate, Rabbi Nieto, has been compelled to go to Europe for his health. Rabbi Fried desires to acquaint his friends in this community with the fact of his safe arrival in San Francisco, and to again thank them for their cordial hospitality and kindly welcome.
