AN OPEN LETTER TO PARENTS OF OUR SUNDAY
SCHOOL CHILDREN

As everyone knows, we are now conducting our Sunday School classes at the YMCA building. This was a move in the right direction, as we now have all the children under one roof. There were many problems to face, but thanks to the teachers and the students, these are being resolved each week. Ultimately, we will have the most efficient and comfortable conditions for everyone, considering the available facilities. Until we are fortunate to have a place of our own, there will always be some problems.

Being at the school each Sunday, I have the privilege of visiting the classrooms and talking to the teachers and your children. It is satisfying to look at their happy faces and know that these children have the opportunity of getting the Jewish education that is their just due.

To any parent concerned about the qualifications of the teaching, be not so. I have recently been to the Teachers Conference of the South West District, and have spoken to many of the leaders there. We have in our group the finest teaching staff in the District, one you as a parent can be proud of. I personally want to give my thanks for their cooperation and the spirit of enthusiasm in our school. We are all novices in this venture, but we will improve each month through experience and time.

The important thing is, support your Sunday School, encourage your child in his lessons, cooperate with the teachers. This is your project Parents; let's us build our Sunday School into something we can be proud of - for the sake of our children.
