The International Student Conference conceived the International Student Identity Card to assist students in all parts of the world to take advantage of the many special facilities and concessions open to students of other countries. Many of these concessions are listed in NSTA'S Official Student Guide to Europe.

The U. S. National Student Association (USNSA) is the world's largest national student organization. Founded in 1947, it is non-partisan and non-sectarian, and exists to aid students and student governments through conferences, publications and student service programs. The U. S. National Student Travel Association (NSTA), an affiliate of USNSA, is the United States delegate to the International Student Travel Conference.

This card is only valid if it is completely filled out and signed by the bearer, signed by the Secretary General of the International Student Conference, and validated below and across the bearer's photograph by the U. S. National Student Travel Association (NSTA), a USNSA member student government, or an official of the bearer's college or university. Validation certifies that the holder is a bona fide student registered in a recognized U. S. college or university. It is illegal for this card to be used by other than such a student, and it may only be validated for one year at a time.

Cette carte n'est valide que si elle porte la signature du Secrétaire Général de la Conférence Internationale des Etudiants et le cachet de l'établissement d'enseignement mentionné précédemment ou de l'Union Nationale du pays. Elle devra être validée tous les ans.
