Editorial

The temptation to do a hundred page picture story on Anathan House was almost overwhelming. Only limitation of space prevented us from showing you the many facets of this jewel of an organization. Therefore we implore you to drop in at Anathan House some time, any time, and stroll through the building and observe and talk with the senior citizens there. If you're there Wednesday noon you can have a delicious home made lunch for 50¢. On Friday mornings you might catch the "3 C's", or the Men's Breakfast Club or the Decorative Arts class conducted by Mrs. George Wasser which turns out highly professional objects which are sold at the House as well as at The Women's Exchange. Pick up a copy of the monthly newspaper put

out by the Anathan House members. You'll read about their book reviews, bridge lessons, art classes, music appreciation, picnics, bazaars, dances. Over 60 looks like a nice place to be.
