## COURTESIES

Health Club members may now use Health Club facilities in other Jewish Community Centers when they visit other cities around the country. We, too, at the Pittsburgh "Y" extend that privilege to members of out-of-town Jewish Community Center Health Clubs. Just show your "Y" Health Club membership card when you visit another Center.

You may attend these facilities without charge five times, paying only the nominal fee charged by that Center for massage or other personal service. The use of facilities is available upon presentation of your "Y" Health Club membership card.

Let us know when you plan to visit another city and we will be most happy to advise their community center that you will be visiting them.
