

SAXONBURG MINERAL SPRINGS ANALYZED BY DR. F. T. ASHMAN AND HIGHLY RECOMMENDED

Elsewhere in this issue appears the analysis of F. T. Ashman, Ph.B., P.D., of the Saxonburg Mineral Springs, at Saxonburg, Pa.

Mr. Morris Tafel, Proprietor of the Saxonburg Mineral Springs Hotel, through his announcement of the opening of this ideally

located hotel, has received numerous inquiries and reservations have already been made by a number of Jewish people in Pittsburgh and vicinity.

The fact of the high recommendation of the Springs, noted for curative and tonic purposes; the convenience of the location of the

hotel by train, trolley or auto; the elaborate plans being made by Mr. Tafel for the enjoyment and comfort of the guests; also the cuisine, which will be of real Hungarian home-cooking and in accordance with the Jewish dietary laws, tend to make this an ideal summer resort.

Too much cannot be said of the results de-

rived from the Saxonburg Mineral Springs. Many persons have been cured of rheumatism, blood, liver, kidney and stomach disorders. This, in addition to the other advantages already mentioned, should make this one of the most popular summer resorts. For particulars phone Schenley 1843-J, or the Hotel, at Saxonburg, Pa.
