The thing that has interested me most this semester has been the Modern Dance^{Group} which I was able to form under the sponsorship of Miss Spurrier. As there are many people who have never seen or heard anything about Modern Dance, it has served as a means to introduce more people to this type of dance. It has taught the girls, even though they are not interested in dance as a profession, some dance techniques and to move about with more poise and gracefulness. The class has meant a great deal to^{me} because it has given me a chance to assist in the teaching and also an opportunity to obtain forty-five extra minutes of necessary practice a week.

Since it is my ambition to teach dancing, I am grateful for this added experience. Now that the course is coming to an end, it has proved to me that there are other people who are interested in the thing that I would like to devote my later years to. That is why the forming of the Modern Dance Group has interested me most this semester.
