Shrimp

WE, of course, are proud as can be about our fifty years of growth. For we've come a long way from the small eating place first opened in 1900 by Joseph and Hannah Klein to our present beautiful restaurant and dining rooms. But . . . we're doubly proud this year, during our fiftieth anniversary celebration, that as second and third generation management is taking over, we're still building and adding to our enviable reputation. Now, same as through the years, we know that "everyone always likes to dine at Klein's."
