BETWEEN SHADY AND MURRAY AVENUES

Come Out and See a Real Home

One Block From Colfax School and Street Car

We have furnished number 5929 Phillips Avenue so as to show you how spacious the rooms are after furniture has been placed. At this writing, some of the houses have been sold and the balance are now ready for occupancy. The houses are of a conservative design and are highly restricted. They contain 8 rooms, 2 baths, breakfast room, refrigerator room, ample storage and cupboard space, coal and fruit storage rooms in basement, hot water heat, combination coal and gas furnace, instantaneous water heater, brass plumbing, large front porch, garage and driveway, and other conveniences. The houses are built of brick and hollow tile (no wood veneer) with roofs of Spanish and Shingle tile. Buying a Pittsburgh Housing Corporation home is buying the best and most for your money.
